

# **Lone Tree Elementary School**

School Accountability Report Card, 2006–2007  
Wheatland Elementary School District

» An annual report to the community about teaching, learning, test results, resources, and measures of progress in our school.

# Lone Tree Elementary School

School Accountability Report Card, 2006–2007  
Wheatland Elementary School District

This School Accountability Report Card (SARC) provides information that can be used to evaluate and compare schools. State and federal laws require all schools to publish a SARC each year.

The information in this report represents the 2006–2007 school year, not the current school year. In most cases, this is the most recent data available. We present our school's results next to those of the average elementary school in the county and state to provide the most meaningful and fair comparisons. To find additional facts about our school online, please use the [DataQuest](#) tool offered by the California Department of Education.

If you are reading a printed version of this report, note that words that appear in a smaller, bold typeface are links in the online version of this report to even more information. You can find a master list of those linked words, and the Web page addresses they are connected to, at:

[http://www.schoolwisepress.com/sarc/links\\_2007\\_en.html](http://www.schoolwisepress.com/sarc/links_2007_en.html)

Reports about other schools are available on the [California Department of Education Web site](#). Internet access is available in local libraries.

If you have any questions related to this report, please contact the school office.

# Lone Tree Elementary School

School Accountability Report Card, 2006–2007  
Wheatland Elementary School District

## » Principal's Message

At Lone Tree School, 2006–2007 was a very exciting year. We were the recipient of the Title One Academic Achievement Award and the California Business for Educational Excellence Foundation Award for the second year in a row. We were named a California Distinguished School in the 2005–2006 school year.

Despite declining enrollment across the district and continued budget reductions, our Academic Performance Index (API) increased 6 points over the previous year, and we have achieved a score of 850. Our staff believes that we've made these gains through ongoing training in effective instructional strategies, our careful program planning and sequencing in both language arts and math, and our academic programs that support students who are struggling. The computer-based programs Accelerated Math, Accelerated Reader, and Math Facts in a Flash have also contributed to our students' success.

Lone Tree welcomes parents and community volunteers on our campus. It is our goal to team with families to create the best educational environment possible for our students.

Angela Gouker, PRINCIPAL

### Grade range and calendar

**K-5**

TRADITIONAL

### Academic Performance Index

**850**

County Average: 762  
State Average: 763

### Student enrollment

**435**

County Average: 383  
State Average: 531

### Teachers

**23**

County Average: 20  
State Average: 26

### Students per teacher

**19**

County Average: 19  
State Average: 20

### Students per computer

**2**

County Average: 4  
State Average: 5

### **Major Achievements**

- We received the California Distinguished School Award in 2005–2006.
- We received the Title One Academic Achievement Award and the California Business for Educational Excellence Award for a second year in a row.
- Our API increased by 6 points and grew to 850.
- The number of students scoring in the Below Basic and Far Below Basic levels on standardized tests decreased significantly.
- We have maintained our focus on effective instructional strategies and a systematic approach to standards-based instruction.
- Our afterschool programs challenge and support our students' academic growth.

### **Focus for Improvement**

- Every trimester we measure student progress toward mastering state standards through district assessments in language arts, writing, and math. Teachers in each grade level meet to discuss the results of these tests, make changes to their instruction if appropriate, and decide on the best ways to support students who did not do well.
- This year we have focused on improving student writing and on better aligning our academic afterschool programs with classroom instruction. We will measure our progress toward these goals through the district writing assessments and meetings each trimester with our Afterschool Program Coordinator.

**MEASURES OF PROGRESS**

**Academic Performance Index**

The Academic Performance Index (API) is California’s way of comparing schools based on student test scores. The index was created in 1999 to help parents and educators recognize schools that show progress and identify schools that need help. A school’s API determines whether it receives recognition or sanctions. It is also used to compare schools in a statewide ranking system. The California Department of Education (CDE) calculates our school’s API using student test results from the California Standards Tests, the California Achievement Test, and, for high schools, the California High School Exit Exam (CAHSEE). APIs range from 200 to 1000. The CDE expects all schools to eventually obtain APIs of at least 800. [Additional information on the API](#) can be found on the CDE Web site.

CALIFORNIA <b>API</b> ACADEMIC PERFORMANCE INDEX	
<b>Met schoolwide growth target</b>	<b>Yes</b>
<b>Met growth target for prior school year</b>	<b>Yes</b>
<b>API score</b>	<b>850</b>
<b>Growth attained from prior year</b>	<b>+6</b>
<b>Met subgroup* growth targets</b>	<b>Yes</b>
<b>Underperforming school</b>	<b>No</b>

Lone Tree’s API was 850 (out of 1000). This is an increase of 6 points compared to last year’s API. All students took the test. You can find three years of detailed API results in the Data Almanac that accompanies this report.

**API RANKINGS:** Based on our 2005–2006 test results, we started the 2006–2007 school year with an API base score of 844. The state ranks all schools according to this score on a scale from 1 to 10 (10 being highest). Compared to all elementary schools in California, our school ranked 8 out of 10.

SOURCE: API based on spring 2007 test cycle. Growth scores alone are displayed and are current as of March 2008.

\*Ethnic or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals. R/P - Results pending due to challenge by school. N/A - Results not available.

**SIMILAR SCHOOL RANKINGS:** We also received a second ranking that compared us to the 100 schools with the most similar students, teachers, and class sizes. Compared to these schools, our school ranked 10 out of 10. The CDE recalculates this factor every year. To read more about the specific elements included in this calculation, refer to the [CDE Web site](#).

**API GROWTH TARGETS:** Each year the CDE sets specific API “growth targets” for every school. It assigns one growth target for the entire school, and it sets additional targets for ethnic or socioeconomic subgroups of students that make up a significant portion of the student body. Schools are required to meet all of their growth targets. If they do, they may be eligible to apply for awards through the California School Recognition Program and the Title I Achieving Schools Program.

We met our assigned growth targets during the 2006–2007 school year. Just for reference, 51 percent of elementary schools statewide met their growth targets.

**API, Spring 2007**

SOURCE: API based on spring 2007 test cycle. State average represents elementary schools only.  
NOTE: Only groups of students that represent at least 15 percent of total enrollment are calculated and displayed as student subgroups.

### Adequate Yearly Progress

In addition to California’s accountability system, which measures student achievement using the API, schools must also meet requirements set by the federal education law known as **No Child Left Behind (NCLB)**. This law requires all schools to meet a different goal: **Adequate Yearly Progress (AYP)**.

We met all 13 criteria for yearly progress. As a result, we succeeded at making AYP.

To meet AYP, elementary and middle schools must meet three criteria. First, a certain percentage of students must score at or above Proficient levels on the California Standards Tests (CST): 24.4 percent on the English/language arts test and 26.5 percent on the math test. All ethnic and socioeconomic subgroups of students also must meet these goals. Second, the schools must achieve an API of at least 590 or increase the API by one point from the prior year. Third, 95 percent of the student body must take the required standardized tests.

If even one subgroup of students fails to meet just one of the criteria, the school fails to meet AYP. While all schools must report their progress toward meeting AYP, only schools that receive federal funding to help economically disadvantaged students are actually penalized if they fail to meet AYP goals. Schools that do not make AYP for two or more years in a row in the same subject enter **Program Improvement (PI)**. They must offer students transfers to other schools in the district and, in their second year in PI, tutoring services as well.

FEDERAL <b>AYP</b> ADEQUATE YEARLY PROGRESS	
<b>Met AYP</b>	<b>Yes</b>
<b>Met schoolwide participation rate</b>	<b>Yes</b>
<b>Met schoolwide test score goals</b>	<b>Yes</b>
<b>Met subgroup* participation rate</b>	<b>Yes</b>
<b>Met subgroup* test score goals</b>	<b>Yes</b>
<b>Met schoolwide API for AYP</b>	<b>Yes</b>
<b>Program Improvement School in 2007</b>	<b>No</b>

SOURCE: AYP is based on the Accountability Progress Report of March 2008. A school can be in Program Improvement based on students’ test results in the 2006–2007 school year or earlier.

\*Ethnic or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals. R/P - Results pending due to challenge by school. N/A - Results not available.

### Adequate Yearly Progress, Detail by Subgroup

● MET GOAL ● DID NOT MEET GOAL — NOT ENOUGH STUDENTS

	English/Language Arts		Math	
	DID 95% OF STUDENTS TAKE THE CST?	DID 24.4% OF STUDENTS SCORE PROFICIENT OR ADVANCED ON THE CST?	DID 95% OF STUDENTS TAKE THE CST?	DID 26.5% OF STUDENTS SCORE PROFICIENT OR ADVANCED ON THE CST?
<b>SCHOOLWIDE RESULTS</b>	●	●	●	●
<b>SUBGROUPS OF STUDENTS</b>				
<b>Low income</b>	●	●	●	●
<b>STUDENTS BY ETHNICITY</b>				
<b>White/Other</b>	●	●	●	●

SOURCE: AYP release of March 2008, CDE.

The table at left shows our success or failure in meeting AYP goals in the 2006–2007 school year. The green dots represent goals we met; red dots indicate goals we missed. Just one red dot means that we failed to meet Adequate Yearly Progress.

Note: Dashes indicate that too few students were in the category to draw meaningful conclusions. Federal law requires valid test scores from at least 50 students for statistical significance.

## STUDENT ACHIEVEMENT

Here you'll find a three-year summary of our students' scores on the California Standards Tests (CST) in selected subjects. We compare our students' test scores to the results for students in the average elementary school in California. On the following pages we provide more detail for each test, including the scores for different subgroups of students. In addition, we provide links to the California Content Standards on which these tests are based. If you'd like more information about the CST, please contact our principal or our teaching staff. To find [grade-level-specific scores](#), you can refer to the Standardized Testing and Reporting (STAR) Web site. Other tests in the [STAR program](#) can be found on the California Department of Education (CDE) Web site.

### California Standards Tests

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

■ FAR BELOW BASIC ■ BELOW BASIC ■ BASIC ■ PROFICIENT ■ ADVANCED

SOURCE: The scores for the CST are from the spring 2007 test cycle. State average represents elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.

## Frequently Asked Questions About Standardized Tests

**WHERE CAN I FIND GRADE-LEVEL REPORTS?** Due to space constraints and concern for statistical reliability, we have omitted grade-level detail from these test results. Instead we present results at the schoolwide level. You can view the results of far more students than any one grade level would contain, which also improves their statistical reliability. Grade-level results are online on the [STAR Web site](#). More information about student test scores is available in the Data Almanac that accompanies this report.

**WHAT DO THE FIVE PROFICIENCY BANDS MEAN?** Test experts assign students to one of these five proficiency levels, based on the number of questions they answer correctly. Our immediate goal is to help students move up one level. Our eventual goal is to enable all students to reach either of the top two bands, Advanced or Proficient. Those who score in the middle band, Basic, have come close to attaining the required knowledge and skills. Those who score in either of the bottom two bands—Below Basic or Far Below Basic—need more help to reach the Proficient level.

**WHY ARE THE CALIFORNIA STANDARDS TESTS (CST) AND THE CALIFORNIA ACHIEVEMENT TEST (CAT/6) SCORED DIFFERENTLY?** When students take the CST, they can score at any of the proficiency levels: Advanced, Proficient, Basic, Below Basic, or Far Below Basic. In theory all students in California could score at the top. The CAT/6 is a nationally normed test, which means that students are scored against each other nationally. This scoring method is similar to grading “on the curve.” CAT/6 scores are expressed as a ranking on a scale from 1 to 99.

**HOW HARD ARE THE CALIFORNIA STANDARDS TESTS?** Experts consider California’s standards to be among the most clear and rigorous in the country. Just 45 percent of elementary school students scored Proficient or Advanced on the English/language arts test; 53 percent scored Proficient or Advanced in math. You can review the [California Content Standards](#) on the CDE Web site.

**ARE ALL STUDENTS’ SCORES INCLUDED?** No. Only students in grades two through eleven are required to take the CSTs. When fewer than 11 students in one grade or subgroup take a test, state officials remove their scores from the report. They omit them to protect students’ privacy, as called for by federal law.

**CAN I REVIEW SAMPLE TEST QUESTIONS?** Sample test questions for the CST are on the [CDE’s Web site](#). These are actual questions used in previous years.

**WHERE CAN I FIND ADDITIONAL INFORMATION?** The CDE has a wealth of resources on its Web site. The STAR Web site publishes detailed reports for schools and districts, and assistance packets for parents and teachers. This site includes explanations of [technical terms](#), scoring methods, and the [subjects](#) covered by the tests for each grade. You’ll also find a [guide](#) to navigating the STAR Web site as well as help understanding how to [compare test scores](#).

### English/Language Arts (Reading and Writing)

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

**FAR BELOW BASIC** **BELOW BASIC** **BASIC** **PROFICIENT** **ADVANCED**

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
<b>SCHOOLWIDE AVERAGE</b>			58%	99%	<b>SCHOOLWIDE AVERAGE:</b> About 13 percent more students at our school scored Proficient or Advanced than at the average elementary school in California.
<b>AVERAGE ELEMENTARY SCHOOL IN THE COUNTY</b>			40%	99%	
<b>AVERAGE ELEMENTARY SCHOOL IN CALIFORNIA</b>			45%	99%	

### Subgroup Test Scores

BAR GRAPHS BELOW SHOW TWO PROFICIENCY GROUPS (LEFT TO RIGHT):

**FAR BELOW BASIC, BELOW BASIC, AND BASIC** **PROFICIENT AND ADVANCED**

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
<b>Boys</b>			50%	130	<b>GENDER:</b> About 17 percent more girls than boys at our school scored Proficient or Advanced.
<b>Girls</b>			67%	124	
<b>English proficient</b>			59%	247	<b>ENGLISH PROFICIENCY:</b> We cannot compare scores for these two subgroups because the number of English learners tested was either zero or too small to be statistically significant.
<b>English learners</b>	NO DATA AVAILABLE		N/A	7	
<b>Low income</b>			47%	87	<b>INCOME:</b> About 17 percent fewer students from lower-income families scored Proficient or Advanced than our other students.
<b>Not low income</b>			64%	167	
<b>Learning disabled</b>			21%	33	<b>LEARNING DISABILITIES:</b> Students classified as learning disabled scored lower than students without learning disabilities. The CST is not designed to test the progress of students with moderate to severe learning differences.
<b>Not learning disabled</b>			63%	225	
<b>African American</b>			75%	39	<b>ETHNICITY:</b> Test scores are likely to vary among students of different ethnic origins. The degree of variance will differ from school to school. Measures of the achievement gap are beyond the scope of this report.
<b>Hispanic/Latino</b>			55%	42	
<b>White/Other</b>			58%	140	

SOURCE: The scores for the CST are from the spring 2007 test cycle. County and state averages represent elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.  
 N/A: Not applicable. Either no students took the test, or to safeguard student privacy the CDE withheld all results because very few students took the test in any grade.  
 N/S: Not statistically significant. While we have some data to report, we are suppressing it because the number of valid test scores is not large enough to be meaningful.

The graph to the right shows how our students' scores have changed over the years. We present each year's results in a vertical bar, with students' scores arrayed across five proficiency bands. When viewing schoolwide results over time, remember that **progress** can take many forms. It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

You can read the California standards for [English/language arts](#) on the CDE's Web site.

It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

The science standards test was administered only to fifth graders. Of course, students in all grade levels study science in these areas: physical science, life science, earth science, and investigation and experimentation. For background, you can review the **science standards** by going to the CDE’s Web site.

**Three-Year Trend: Science**

### California Achievement Test (CAT/6)

The CAT/6 differs from the CST in three ways. First, in the spring of 2007, only students in grades three and seven took this test. Second, the CAT/6 is taken by students in other states, which enables us to see how our students are doing compared to other students in the nation. Third, the CAT/6 is scored by comparing students to each other on a scale from 1 to 99, much like being graded “on the curve.” In contrast, the CST scores students against five defined criteria.

SUBJECT	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
<b>READING</b>				
High-scoring students	Percentage of students scoring in the top quarter nationally (above the 75th percentile)	17%	14%	15%
Students scoring at or above average	Percentage of students scoring in the top half nationally (at or above the 50th percentile)	49%	39%	39%
<b>LANGUAGE</b>				
High-scoring students	Percentage of students scoring in the top quarter nationally (above the 75th percentile)	21%	16%	19%
Students scoring at or above average	Percentage of students scoring in the top half nationally (at or above the 50th percentile)	56%	43%	46%
<b>MATH</b>				
High-scoring students	Percentage of students scoring in the top quarter nationally (above the 75th percentile)	46%	25%	30%
Students scoring at or above average	Percentage of students scoring in the top half nationally (at or above the 50th percentile)	76%	53%	56%

SOURCE: The scores for the CAT/6 are from the spring 2007 test cycle. County and state averages represent elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Therefore, our test score results may vary from other CDE test score reports when missing data makes it impossible for us to compile complete schoolwide results.  
N/A: Not applicable. Either no students took the test, or to safeguard student privacy the CDE withheld all results because very few students took the test in any grade.

**STUDENTS SCORING ABOVE AVERAGE:** This view of test scores shows the percentage of our students who scored in the top half of students nationally (at the 50th percentile and higher). At Lone Tree, 49 percent of students scored at or above average in reading (compared to 39 percent statewide); 56 percent scored at or above average in language (compared to 46 percent statewide); and 76 percent scored at or above average in math (compared to 56 percent statewide). The subject with the most students scoring at or above average was math.

**HIGH-SCORING STUDENTS:** This view of test scores shows the percentage of our students who scored in the top fourth of students nationally (above the 75th percentile). At Lone Tree, 17 percent of students scored at the top in reading (compared to 15 percent statewide); 21 percent scored at the top in language (compared to 19 percent statewide); and 46 percent scored at the top in math (compared to 30 percent statewide). The subject with the most students scoring at the top was math.

### Our CAT/6 Results Compared

Students take this test only in grades three and seven. The values displayed to the right represent the percentage of our students who scored at or above average compared to their peers in the county and state.

SOURCE: Spring 2007 test cycle. County and state averages represent elementary schools only.

### **Other Measures of Student Achievement**

Our teachers use many methods to evaluate students' skills, such as standardized test scores, the California Alternative Performance Assessment for special education students, the district assessments, and computer-based tests. We assess English learners through their scores on the California English Language Development Test and give our English learners extra help in the classroom. We are on a trimester system, with three progress reports and three report card periods each year. We encourage parents to attend a parent-teacher conference after the first reporting period in November.

**STUDENTS**

**Students’ English Language Skills**

At Lone Tree, 98 percent of students were considered to be proficient in English, compared to 68 percent of elementary school students in California overall.

LANGUAGE SKILLS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
English proficient students	98%	78%	68%
English learners	2%	22%	32%

SOURCE: Language Census for school year 2006–2007. County and state averages represent elementary schools only.

**Languages Spoken at Home by English Learners**

Please note that this table describes the home languages of just the eight students classified as English learners. At Lone Tree, the language these students most often speak at home is Spanish. In California it’s common to find English learners in classes with students who speak English well. When you visit our classrooms, ask our teachers how they work with language differences among their students.

LANGUAGE	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Spanish	50%	69%	85%
Vietnamese	0%	0%	2%
Cantonese	0%	0%	1%
Hmong	0%	22%	1%
Filipino/Tagalog	13%	0%	1%
Korean	25%	0%	1%
Khmer/Cambodian	0%	1%	0%
All other	12%	8%	9%

SOURCE: Language Census for school year 2006–2007. County and state averages represent elementary schools only.

**Ethnicity**

Most students at Lone Tree identify themselves as White/European American/Other. In fact, there are about four times as many White/European American/Other students as Latino/Hispanic students, the second-largest ethnic group at Lone Tree. The state of California allows citizens to choose more than one ethnic identity, or to select “multiethnic” or “decline to state.” As a consequence, the sum of all responses rarely equals 100 percent.

ETHNICITY	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
African American	14%	4%	7%
Asian American/Pacific Islander	9%	10%	11%
Latino/Hispanic	14%	27%	50%
White/European American/Other	63%	59%	32%

SOURCE: CBEDS census of October 2006. County and state averages represent elementary schools only.

**Family Income and Education**

The free or reduced-price meal subsidy goes to students whose families earned less than \$37,000 a year (based on a family of four) in the 2006–2007 school year. At Lone Tree, 49 percent of the students qualified for this program, compared to 56 percent of students in California.

FAMILY FACTORS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Low-income indicator	49%	60%	56%
Parents with some college	81%	57%	54%
Parents with college degree	33%	21%	30%

SOURCE: The free and reduced-price lunch information is gathered by most districts in October. This data is from the 2006–2007 school year. Parents’ education level is collected in the spring at the start of testing. Rarely do all students answer these questions. County and state averages represent elementary schools only.

The parents of 81 percent of the students at Lone Tree have attended college, and 33 percent have a college degree. This information can provide some clues to the level of literacy children bring to school. One precaution is that the students themselves provide this data when they take the battery of standardized tests each spring, so it may not be completely accurate. About 57 percent of our students provided this information.

**CLIMATE FOR LEARNING**

**Average Class Sizes**

Because funding for class-size reduction was focused on the early grade levels, our school’s class sizes, like those of most elementary schools, differ across grades.

The average class size at Lone Tree varies across grade levels from a low of 19 students to a high of 28. Our average class size schoolwide is 22 students. The average class size for elementary schools in the state is 23 students.

AVERAGE CLASS SIZE BY GRADE	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Kindergarten	21	19	20
First grade	19	19	19
Second grade	19	19	19
Third grade	20	18	20
Fourth grade	27	26	29
Fifth grade	28	29	29

SOURCE: CBEDS census, October 2006. County and state averages represent elementary schools only.

**Safety**

Our classrooms are open 15 minutes before school begins. Staff members monitor the parking lot immediately after dismissal. We have a closed campus, and all visitors must register with the office. We hold monthly fire drills and have an earthquake and disaster drill once a year. We will review our school safety plan in October of 2007 and are currently working with Rapid Responder, a county services program, and a military base liaison to coordinate the plan with outside agencies. All administrators completed a disaster safety course over the summer and are conducting staff training at the site on a monthly basis.

**Discipline**

We adhere to three simple rules at Lone Tree: Be Safe, Be Respectful, and Be Responsible. These rules apply on our campus, in our classrooms, and at all school functions. Consequences for poor behavior include: warnings, time-outs, in-house, Life Skills, in-school suspension, at-home suspension, and expulsion. The Life Skills program provides a quiet classroom environment in which students reflect, discuss, and come up with ways for making better choices. A trained instructional aide helps to brainstorm strategies, role model, and provide helpful tools for future difficult situations.

KEY FACTOR	OUR SCHOOL	DISTRICT AVERAGE	STATE AVERAGE
<b>Suspensions per 100 students</b>			
2006–2007	0	0	5
2005–2006	3	2	5
2004–2005	7	5	5
<b>Expulsions per 100 students</b>			
2006–2007	0	0	2
2005–2006	0	0	0
2004–2005	0	0	0

SOURCE: Data is from the California Department of Education, SARC research file. Data represents the number of incidents reported, not the number of students involved. District and state averages represent elementary schools only.

At times we find it necessary to suspend students who break school rules. We report only suspensions in which students are sent home for a day or longer. We do not report in-school suspensions, in which students are removed from one or more classes during a single school day. Expulsion is the most serious consequence we can impose. Expelled students are removed from the school permanently and denied the opportunity to continue learning here.

During the 2006–2007 school year, we had no suspension incidents. We had no incidents of expulsion. To make it easy to compare our suspensions and expulsions to those of other schools, we represent these events as a ratio (incidents per 100 students) in this report.

**Homework**

Lone Tree believes in establishing good study habits at an early age. We ask that all students read for a minimum of 20 minutes each night. The amount of homework and time spent on it varies according to the age of a child. Parents are encouraged to take an active interest in papers and work brought home. Parental supervision of homework to its completion is a key to future success in school.

**Schedule**

The school year included 180 days of instruction. Classes begin at 8:10 a.m. for fourth and fifth grade students and at 8:30 a.m. for all kindergarten through third grade students. All classes are dismissed at 2:15 p.m. On minimum days, students are released at 1:15 p.m. We offer students a breakfast program before school starting at 7:50 a.m. as well as a hot lunch program. Office hours are from 7 a.m. to 4 p.m. each day.

**Physical Fitness**

Students in grades five, seven, and nine take the California Fitness Test each year. This test measures students’ aerobic capacity, body composition, muscular strength, endurance, and flexibility using six different tests. The table at right shows the percentage of students at our school who scored within the “healthy fitness zone” on all six tests. Our results are compared to other students’ results in the county and state. More information about [physical fitness testing and standards](#) is available on the CDE Web site.

CATEGORY	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
<b>Boys in Fitness Zone</b>	41%	28%	25%
<b>Girls in Fitness Zone</b>	59%	31%	30%
<b>Fifth graders in Fitness Zone</b>	48%	30%	27%
<b>Seventh graders in Fitness Zone</b>	N/A	36%	29%
<b>Ninth graders in Fitness Zone</b>	N/A	8%	23%
<b>All students in Fitness Zone</b>	48%	29%	27%

SOURCE: 2006–2007 physical fitness test data is produced annually as schools test their students on the six Fitnessgram Standards. Data is reported by Educational Data Systems. County and state averages represent elementary schools only.

**LEADERSHIP, TEACHERS, AND STAFF**

**Leadership**

Mrs. Gouker has been principal of our school for five years. She has eight years of experience as a principal and eight years as a teacher. Mrs. Gouker grew up in the Rio Oso area. She attended Browns Elementary in Rio Oso and East Nicolaus High School in Nicolaus. She earned a BA in liberal studies from Humboldt State University and her credential and MA in Educational Administration through Chapman University. She spent two years teaching a sixth/seventh grade combination class at Browns Elementary before teaching junior high at Brittan Elementary in Sutter, CA. While teaching at Brittan, she started and directed the Sutter County Opportunity Program. She taught third grade for two years prior to joining our district. She was the Vice Principal at Lone Tree, created the Wheatland Charter School, and served as the charter school’s director. The following year she began as the principal of Lone Tree School.

Teachers and administrators take part in decision making at this school. Teachers work in grade-level teams with administrators to make decisions about the curriculum, such as when to teach specific topics and for how long. They also work together to set site goals. Our School Site Council (SSC), which includes parent members as well as teachers, classified staff, and administrators, plays a key role in reviewing programs and shaping our students’ educational experience. The SSC adopts the school site plan and determines how the School Site Improvement Budget is spent.

**Teacher Experience and Education**

KEY FACTOR	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Teaching experience	Average years of teaching experience	18	12	13
Newer teachers	Percentage of teachers with one or two years of teaching experience	4%	16%	11%
Teachers holding an MA degree or higher	Percentage of teachers with a master’s degree or higher from a graduate school	26%	14%	33%
Teachers holding a BA degree alone	Percentage of teachers whose highest degree is a bachelor’s degree from a four-year college	74%	86%	67%

SOURCE: Professional Assignment Information Form (PAIF), October 2006, completed by teachers during the CBEDS census. County and state averages represent elementary schools only.

About four percent of our teachers have less than three years of teaching experience, which is below the average for new teachers in other elementary schools in California. Our teachers have, on average, 18 years of experience. About 74 percent of our teachers hold only a bachelor’s degree from a four-year college or university. About 26 percent have completed a master’s degree or higher.

### Credentials Held by Our Teachers

KEY FACTOR	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
<b>Fully credentialed teachers</b>	Percentage of staff holding a full, clear authorization to teach at the elementary or secondary level	96%	94%	97%
<b>Trainee credential holders</b>	Percentage of staff holding an internship credential	4%	4%	2%
<b>Emergency permit holders</b>	Percentage of staff holding an emergency permit	0%	2%	3%
<b>Teachers with waivers</b>	Lowest level of accreditation, used by districts when they have no other option	0%	2%	0%

SOURCE: PAIF, October 2006. This is completed by teachers during the CBEDS census. County and state averages represent elementary schools only. A teacher may have earned more than one credential. For this reason, it is likely that the sum of all credentials will exceed 100 percent.

About 96 percent of the faculty at Lone Tree hold a full credential. This number is close to the average for all elementary schools in the state. About four percent of the faculty at Lone Tree hold a trainee credential, which is reserved for those teachers who are in the process of completing their teacher training. In comparison, two percent of elementary school teachers throughout the state hold trainee credentials. None of our faculty holds an emergency permit. Very few elementary school teachers hold this authorization statewide (just three percent). All of the faculty at Lone Tree hold the elementary (multiple-subject) credential. This number is above the average for elementary schools in California, which is 91 percent. You can find three years of data about teachers’ credentials in the Data Almanac that accompanies this report.

### Indicators of Teachers Who May Be Underprepared

KEY FACTOR	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
<b>Core courses taught by a teacher not meeting NCLB standards</b>	Percentage of core courses not taught by a “highly qualified” teacher according to federal standards in NCLB	0%	N/A	0%
<b>Teachers lacking a full credential</b>	Percentage of teachers without a full, clear credential	4%	6%	3%

SOURCE: Professional Assignment Information Form (PAIF) of October 2006. Data on NCLB standards is from the California Department of Education, SARC research file.

**“HIGHLY QUALIFIED” TEACHERS:** The federal law known as No Child Left Behind (NCLB) requires districts to report the number of teachers considered to be “highly qualified.” These “highly qualified” teachers must have a full credential, a bachelor’s degree, and, if they are teaching a core subject (such as reading, math, science, or social studies), they must also demonstrate expertise in that field. The table above shows the percentage of core courses taught by teachers who are considered to be less than “highly qualified.” There are exceptions, known as the **High Objective Uniform State Standard of Evaluation (HOUSSE)** rules, that allow some veteran teachers to meet the “highly qualified” test who wouldn’t otherwise do so.

**CREDENTIAL STATUS OF TEACHERS:** Teachers who lack full credentials are working under the terms of an emergency permit, an internship credential, or a waiver. They should be working toward their credential, and they are allowed to teach in the meantime only if the school board approves. About four percent of our teachers were working without full credentials, compared to three percent of teachers in elementary schools statewide.

More facts about our teachers, called for by the recent Williams legislation of 2004, are available on our Accountability Web page, which is accessible from our district Web site. What you will find are specific facts about **misassigned teachers** and **teacher vacancies** in the 2007–2008 school year.

### Districtwide Distribution of Teachers Who Are Not “Highly Qualified”

Here, we report the percentage of core courses in our district whose teachers are considered to be less than “highly qualified” by NCLB’s standard. We show how these teachers are distributed among schools according to the percentage of low-income students enrolled.

The CDE has divided schools in the state into four groups (quartiles), based on the percentage of families who qualify and apply for free or reduced-price

lunches. The one-fourth of schools with the most students receiving subsidized lunches are assigned to the first group. The one-fourth of schools with the fewest students receiving subsidized lunches are assigned to the fourth group. We compare the courses and teachers assigned to each of these groups of schools to see how they differ in “highly qualified” teacher assignments.

The average percentage of courses in our district not taught by a “highly qualified” teacher is two percent, compared to five percent statewide.

DISTRICT FACTOR	DESCRIPTION	CORE COURSES NOT TAUGHT BY HQT IN DISTRICT	CORE COURSES NOT TAUGHT BY HQT IN STATE
<b>Districtwide</b>	Percentage of core courses not taught by “highly qualified” teachers (HQT)	2%	5%
<b>Schools with the most low-income students</b>	First quartile of schools whose core courses are not taught by “highly qualified” teachers	N/A	5%
<b>Schools with the fewest low-income students</b>	Fourth quartile of schools whose core courses are not taught by “highly qualified” teachers	N/A	3%

SOURCE: Data is from the California Department of Education, SARC research file.

**Staff Development**

Lone Tree School offers ongoing staff development to all of our teachers. For the past five years, our site has been working on the development of effective instructional strategies with Dr. Marilyn Bates. This year our staff had three half days of instruction with her. In addition, we teamed with the Step Up to Writing facilitators and had five half days of training in the use of this program. Finally, each trimester, teachers met in grade-level groups to review student work, plan instruction, decide on curriculum, and review student progress.

YEAR	PROFESSIONAL DEVELOPMENT DAYS
2006–2007	3.0
2005–2006	3.0
2004–2005	3.0

**Substitute Teachers**

Lone Tree is fortunate to have a pool of retired teachers and a group of parents who have teaching credentials from other states who serve as substitutes. When a substitute cannot be found for a class, the principal or vice principal often steps in to teach. As a last resort, classes may be split so that other teachers cover students on that day. Teachers have emergency substitute plans to minimize disruption.

**Specialized Resource Staff**

Our school may employ social workers, speech and hearing specialists, school psychologists, nurses, and technology specialists. These specialists often work part time at our school and some may work at more than one school in our district. Their schedules will change as our students’ needs change. For these reasons, the staffing counts you see here may differ from the staffing provided today in this school. For more details on [statewide ratios of counselors, psychologists, or other pupil services](#) staff to students, see the California Department of Education (CDE) Web site. [Library facts](#) and frequently asked questions are also available there.

## Specialized Programs and Staff

Lone Tree has the benefit of a part-time counselor, a school resource officer, a part-time psychologist, and a part-time nurse to assist students on our campus. These individuals are assigned based on student need. We have two full-time computer technical aides who help maintain site technology and oversee our two computer labs and classroom mini-labs. We also have a full-time and part-time librarian. Finally, we have a part-time music teacher who serves our second through fifth grades.

**GIFTED AND TALENTED EDUCATION (GATE):** Students in fourth and fifth grade may be placed in GATE based on academic achievement and placement test scores. Lone Tree's GATE program runs after school. Each trimester a different focus is chosen, such as art, science, or drama, and students engage in a multitude of related projects, lessons, and field trips planned by the GATE coordinator. Participation in this program is voluntary for those who qualify.

**SPECIAL EDUCATION PROGRAM:** Lone Tree has two full-time Resource Specialist Program (RSP) and Special Day Class (SDC) teachers on site. These teachers have the benefit of working with two full-time assistants and six part-time assistants, whose time is distributed according to student needs. Students enrolled in our special education program meet daily with a special education teacher who provides instruction based on the student's Individualized Education Plan (IEP). IEPs are carefully formulated and monitored to ensure student growth. Special education students may also work with the school's part-time counselor or part-time psychologist to receive additional guidance in being successful at school.

**ENGLISH LEARNER PROGRAM:** Lone Tree has a very small number of English learners (EL), approximately two percent of the school's population. We identify these students by using the CELDT. We place English learners with teachers who have the qualifications necessary for teaching them. These students may also participate in the Auto Skills, English in a Flash, and afterschool intervention (extra help) programs. We focus our instruction on reading, math, and verbal skills for these students.

## CURRICULUM AND TEXTBOOKS

For more than six years, panels of scholars have decided what California students should learn and be able to do. Their decisions are known as the California Content Standards, and they apply to all public schools in the state. The textbooks we use and the tests we give are based on these content standards, and we expect our teachers to be firmly focused on them. Policy experts, researchers, and educators consider our state's standards to be among the most rigorous and challenging in the nation. You can find the [content standards](#) for each subject at each grade level on the Web site of the California Department of Education (CDE).

### Reading and Writing

By third grade, we expect our students to be able to read and write. By fourth grade, we're teaching students to read full-length books and to use a dictionary and encyclopedia when they write. By fifth grade, students should be able to write poems, plays, true-life adventures, and personal journals. You can read the California standards for [English/language arts](#) on the CDE's Web site.

### Math

Because the math standards have become more rigorous, our goal now is to prepare our elementary school graduates to start middle school ready to master algebra in the eighth grade. You can read the [math standards](#) on the CDE's Web site.

### Science

Students learn the science standards starting in first grade. The curriculum covers physical, earth, and life sciences. The scientific method of experimentation and investigation is woven through all of our science courses. Read more about the [science standards](#) on the CDE's Web site.

### Social Science

Students learn about citizenship starting in first grade. In second grade, we explore the lives of people who affect our students' everyday lives and learn about extraordinary people from history. The theme in third grade is continuity and change. California is the subject of our studies in fourth grade, and American history is our focus in fifth grade. Our students also learn about geography. They learn to research topics on their own, develop their own point of view, and interpret history. To read more about the [social studies standards](#), see the CDE's Web site.

### Textbooks

We choose our textbooks from lists that have already been approved by state education officials. For a list of some of the textbooks we use at our school, see the Data Almanac that accompanies this report.

We have also reported additional facts about our textbooks called for by the Williams legislation of 2004. This online report shows whether we had a textbook for each student in each core course during the 2007–2008 school year, and whether those [textbooks](#) covered the California Content Standards.

**RESOURCES**

**Buildings**

Lone Tree School was built in 1948. In 2002, all roofs and heating, ventilating, and air conditioning systems were replaced. In 2007 all electrical transformers were replaced and major electrical work was conducted under critical hardship funds. We are currently scheduled to undergo renovation next year. We work hard to ensure that our school is clean, safe, and functional within the available resources. Our site has established cleaning standards. A summary of these standards is available through the site administrator. We give food service and restroom facilities the highest priority on a daily basis to ensure the health and safety of students and staff. This year, Lone Tree was lucky enough to have a parent volunteer completely make over our cafeteria with a mural project. This mural depicts the planes that fly out of Beale Air Force Base. Over the past two years, we have fully renovated three of our five playgrounds.

More facts about the [condition of our school buildings](#) are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the [Office of Public School Construction \(OPSC\)](#), and were brought about by the legislation known as Williams. If you'd like to see the six-page [survey form](#) used for the assessment, you will find it on the Web site of the OPSC.

**Library**

Our library is open five days a week from 7:30 a.m. to 3:30 p.m. The library is staffed with one full-time and one part-time library technician. Every classroom has one hour a week scheduled for the library. The library is the foundation of our computer-based Accelerated Reader program. Last year we spent over \$8,000 updating books and buying Accelerated Reader quizzes.

**Computers**

We have 239 computers available for student use, which means that, on average, there is one computer for every two students. There are 24 classrooms connected to the Internet.

RESOURCES	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Students per computer	2	4	5
Internet-connected classrooms	24	18	30

SOURCE: CBEDS census of October 2006. County and state averages represent elementary schools only.

All classrooms have a teacher laptop and a minimum of four student computers. In addition we have two computer labs supervised by two full-time computer technical aides. Over 90 percent of the teachers on campus have Web sites for student and parent use. Each classroom is designated one full hour of computer lab time a week. We have a variety of software programs, including Accelerated Reader, Accelerated Math, Math Facts in a Flash, English in a Flash, ABC World, Drawing for Children, and more.

**Parent Involvement**

Our school's annual site plan and some site budget approvals are made by our School Site Council (SSC), which always includes parent members. Our District English Language Advisory Committee helps students learning English feel welcome at our school. Our parents are active volunteers who have helped us build and grow a Life lab, renovate playgrounds, create a mural in our cafeteria, and organize an Art Docent program. Classroom and campus volunteers are always needed. To find out how you can volunteer at our school, please contact Mrs. Gouker, our principal, at (530) 788-0248.

**DISTRICT EXPENDITURES**

CATEGORY OF EXPENSE	OUR DISTRICT	SIMILAR DISTRICTS	ALL DISTRICTS
<b>FISCAL YEAR 2005–2006</b>			
Total expenses	\$14,506,844	N/A	N/A
Expenses per student	\$10,659	\$7,229	\$7,521
<b>FISCAL YEAR 2004–2005</b>			
Total expenses	\$13,629,529	N/A	N/A
Expenses per student	\$9,728	\$6,897	\$7,127

SOURCE: Fiscal Services Division, California Department of Education.

Our district spent an average of \$10,659 per student in the 2005–2006 school year, compared to an average of \$7,229 per student spent by similar (elementary school district) districts in the state. Our total operating expenses for the 2005–2006 year were \$14,506,844. Facts about the 2006–2007 fiscal year were not available at the time we published this report. Additional details about our expenditures can be found on the [Ed-Data Partnership’s Web site](#).

Total expenses include only the costs related to direct educational services to students. This figure does not include food services, land acquisition, new construction, and other expenditures unrelated to core educational purposes. The expenses-per-student figure is calculated by dividing total expenses by the district’s average daily attendance (ADA). More information is available on the [CDE’s Web site](#).

**District Salaries, 2005–2006**

This table reports the salaries of teachers and administrators in our district for the 2005–2006 school year. More current information was not available at the time we published this annual report. This table compares our average salaries to those in districts like ours, based on both enrollment and the grade level of our students. In addition, we report the percentage of our district’s total budget dedicated to teachers’ and administrators’ salaries. The costs of health insurance, pensions, and other indirect compensation are not included.

SALARY INFORMATION	DISTRICT AVERAGE	STATE AVERAGE
<b>Beginning teacher’s salary</b>	\$34,571	\$38,159
<b>Midrange teacher’s salary</b>	\$62,645	\$59,148
<b>Highest-paid teacher’s salary</b>	\$73,885	\$73,514
<b>Average principal’s salary (elementary school)</b>	\$90,147	\$91,903
<b>Superintendent’s salary</b>	\$124,273	\$132,994
<b>Percentage of budget for teachers’ salaries</b>	35%	42%
<b>Percentage of budget for administrators’ salaries</b>	7%	6%

SOURCE: This financial data is from the Statewide Average Salaries and Expenditure Percentages report, 2005–2006, the Fiscal Services Division, CDE.

## SCHOOL EXPENDITURES

Much of our site and categorical money is spent maintaining programs. Portions of the money are spent on staff training programs, such as Essential Skills of Instruction and Step Up to Writing. We also fund our first grade and Life Skills classroom assistants. Last year over \$8,000 went to updating library books and Accelerated Reader quizzes, and over \$30,000 was spent for classroom LCDs and computer upgrades. Technology plays a vital role on our campus, and funds are continuously set aside for technology maintenance. Finally, Lone Tree supports several incentive programs that have been crucial to our students' continued success. These programs are Accelerated Reader, Accelerated Math, and Math Facts in a Flash.

A new law passed in 2005 required schools to report school-specific expenditures for the first time. In prior years, schools reported only the districtwide average for these expenditures. This year we have provided a comparative analysis of our [school's expenditures](#), along with the [average salaries of our teachers](#). You can view this information from the preceding links or on our Accountability Web page, which is accessible through our district's Web site.

**TECHNICAL NOTE ON DATA RECENCY:** All data is the most current available as of March 2008. The CDE may release additional or revised data for the 2006–2007 school year after the publication date of this report. We rely on the following sources of information from the California Department of Education: California Basic Education Data System (CBEDS) (October 2006 census); Language Census (March 2007); California Achievement Test and California Standards Tests (spring 2007 test cycle); Academic Performance Index (October 2007 growth score release); Adequate Yearly Progress (October 2007).

**DISCLAIMER:** School Wise Press, the publisher of this accountability report, makes every effort to ensure the accuracy of this information but offers no guarantee, express or implied. While we do our utmost to ensure the information is complete, we must note that we are not responsible for any errors or omissions in the data. Nor are we responsible for any damages caused by the use of the information this report contains. Before you make decisions based on this information, we strongly recommend that you visit the school and ask the principal to provide the most up-to-date facts available.

### Teacher Credentials

The number of teachers assigned to the school with a full credential and without a full credential, for both our school and the district.

TEACHERS	SCHOOL			DISTRICT
	2004–2005	2005–2006	2006–2007	2006–2007
With Full Credential	22	26	22	77
Without Full Credential	0	0	1	6

**STUDENT PERFORMANCE**

**California Standards Tests (CST)**

The California Standards Tests (CST) show how well students are learning what the state content standards require. The CST include English/language arts and mathematics in grades two through five and science in grade five.

**CST Results for All Students: Three-Year Comparison**

The percentage of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most current three-year period.

SUBJECT	SCHOOL PERCENT PROFICIENT OR ADVANCED			DISTRICT PERCENT PROFICIENT OR ADVANCED			STATE PERCENT PROFICIENT OR ADVANCED		
	2005	2006	2007	2005	2006	2007	2005	2006	2007
English/ Language Arts	56%	65%	58%	55%	55%	53%	40%	42%	43%
Mathematics	73%	73%	68%	51%	52%	56%	38%	40%	40%
Science	N/A	41%	59%	36%	41%	55%	27%	35%	38%

SOURCE: California Standards Tests (CST) results, spring 2007 test cycle, as interpreted and published by the CDE unit responsible for School Accountability Report Cards.

**CST Results by Student Group: Most Recent Year**

The percentage of students, by group, achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most recent testing period.

STUDENT GROUP	PERCENTAGE OF STUDENTS SCORING PROFICIENT OR ADVANCED		
	ENGLISH/ LANGUAGE ARTS 2006–2007	MATHEMATICS 2006–2007	SCIENCE 2006–2007
African American	59%	67%	75%
American Indian or Alaska Native	N/A	N/A	N/A
Asian	67%	83%	N/A
Filipino	91%	91%	N/A
Hispanic or Latino	50%	60%	N/A
Pacific Islander	N/A	N/A	N/A
White (not Hispanic)	58%	66%	59%
Boys	50%	62%	51%
Girls	67%	73%	68%
Economically disadvantaged	47%	60%	42%
English Learners	N/A	N/A	N/A
Students with disabilities	24%	31%	46%
Students receiving migrant education services	N/A	N/A	N/A

### California Achievement Test, Sixth Edition (CAT/6)

The California Achievement Test, Sixth Edition (CAT/6), a national, norm-referenced test, shows how well students are doing compared to students nationally in reading, language, spelling, and mathematics. It is taken only by third and seventh graders. We report only reading and math below. The results are reported as the percentage of students scoring at or above the national average (the 50th percentile).

#### CAT/6 Test Results for Third Grade Students: Three-Year Comparison

The percentage of students scoring at or above the national average in reading and mathematics for the most current three-year period.

SUBJECT	SCHOOL PERCENT PROFICIENT OR ADVANCED			DISTRICT PERCENT PROFICIENT OR ADVANCED			STATE PERCENT PROFICIENT OR ADVANCED		
	2005	2006	2007	2005	2006	2007	2005	2006	2007
Reading	51%	55%	49%	61%	60%	57%	41%	42%	42%
Mathematics	75%	68%	76%	63%	63%	67%	52%	53%	53%

SOURCE: The California Achievement Test, Sixth Edition, spring 2007 test cycle, as interpreted and published by the CDE unit responsible for School Accountability Report Cards.

#### CAT/6 Test Results for Third Grade Students by Group: Most Recent Year

The percentage of students, by group, scoring at or above the national average (the 50th percentile) in reading and mathematics for the most recent testing period.

STUDENT GROUP	PERCENT PROFICIENT OR ADVANCED	
	READING 2006–2007	MATHEMATICS 2006–2007
African American	N/A	N/A
American Indian or Alaska Native	N/A	N/A
Asian	N/A	N/A
Filipino	N/A	N/A
Hispanic or Latino	45%	73%
Pacific Islander	N/A	N/A
White (not Hispanic)	50%	69%
Boys	38%	78%
Girls	58%	74%
Economically disadvantaged	42%	75%
English learners	N/A	N/A
Students with disabilities	N/A	N/A
Students receiving migrant education services	N/A	N/A

**ACCOUNTABILITY**

**California Academic Performance Index (API)**

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1000, with a statewide target of 800. Detailed information about the API can be found on the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

**API Ranks: Three-Year Comparison**

The state assigns statewide and similar-schools API ranks for all schools. The API ranks range from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all elementary schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all elementary schools in the state. The similar-schools API rank reflects how a school compares to 100 statistically matched schools with similar teachers and students.

API RANK	2004–2005	2005–2006	2006–2007
<b>Statewide rank</b>	7	8	8
<b>Similar-schools rank</b>	6	9	10

SOURCE: The API Base Report from July 2007.

**API Changes by Student Group: Three-Year Comparison**

API changes for all students and student groups: the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

STUDENT GROUP	ACTUAL API CHANGE			API SCORE
	2004–2005	2005–2006	2006–2007	2006–2007
<b>All students at the school</b>	+57	+12	+6	850
<b>African American</b>	N/A	N/A	N/A	N/A
<b>American Indian or Alaska Native</b>	N/A	N/A	N/A	N/A
<b>Asian</b>	N/A	N/A	N/A	N/A
<b>Filipino</b>	N/A	N/A	N/A	N/A
<b>Hispanic or Latino</b>	N/A	N/A	N/A	N/A
<b>Pacific Islander</b>	N/A	N/A	N/A	N/A
<b>White (non Hispanic)</b>	+69	+15	-16	839
<b>Economically disadvantaged</b>	+69	+22	-5	823
<b>English learners</b>	N/A	N/A	N/A	N/A
<b>Students with disabilities</b>	N/A	N/A	N/A	N/A

### Federal Adequate Yearly Progress (AYP) and Intervention Programs

The federal law known as No Child Left Behind requires that all schools and districts meet all three of the following criteria in order to attain Adequate Yearly Progress (AYP): (a) a 95-percent participation rate on the state’s tests; (b) a CDE-mandated percentage of students scoring Proficient or higher on the state’s English/language arts and mathematics tests; and (c) an API of at least 590 or growth of at least one point.

#### AYP for the District

Whether the district met the federal requirement for AYP overall, and whether the school and the district met each of the AYP criteria.

AYP CRITERIA	DISTRICT
Overall	Yes
Graduation rate	Yes
Participation rate in English/language arts	Yes
Participation rate in mathematics	Yes
Percent Proficient in English/language arts	Yes
Percent Proficient in mathematics	Yes
Met Academic Performance Index (API)	Yes

SOURCE: The AYP Report as released in the Accountability Progress Report in March 2008.

#### Intervention Program: District Program Improvement (PI)

Districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/language arts or mathematics) and for each grade span or on the same indicator (API or graduation rate). After entering PI, districts advance to the next level of intervention with each additional year that they do not make AYP.

INDICATOR	DISTRICT
PI stage	Not in PI
The year the district entered PI	N/A
Number of schools currently in PI	0
Percentage of schools currently in PI	0%

SOURCE: The Program Improvement Report as released in the Accountability Progress Report in March 2008.
